

Sy Syms School of Business

Established in 1987 through a major gift from Sy Syms, a member of Yeshiva University's Board of Trustees, and other business leaders, the Sy Syms School of Business is the university's undergraduate business school for men and women. It offers the unique combination of a complete business curriculum along with an intensive Jewish studies component.

One of the best undergraduate business programs in the Northeast, the school instills in students strong analytic skills, discipline, and ethical values. It offers professional preparation with a broad base in liberal arts studies, and its curriculum leads to the Bachelor of Science degree. The curriculum covers a common body of knowledge—the business core—in addition to majors or concentrations in accounting, finance, business intelligence and marketing analytics, management, and marketing.

Jewish tradition provides the framework for consideration of ethical issues, an integral part of the student's education. All Sy Syms students simultaneously attend one of the four schools of Jewish studies at the university. Students are taught by a distinguished faculty who hold positions in the research and professional communities and offer students a thorough background in the theoretical and practical aspects of business.

The Rennert Entrepreneurial Institute is one of the nation's few undergraduate programs that fosters students' entrepreneurial skills and knowledge for creating and developing a business. The institute employs an interdisciplinary approach, which uses the curriculum and faculty of the Sy Syms School. Students may take entrepreneurship courses as electives or they may choose the entrepreneurship track of the management concentration. The institute received its initial funding through a generous grant from Mr. and Mrs. Ira Leon Rennert, for whom it is named.

The Sy Syms School of Business offers business programs for men at the uptown Wilf Campus. Students hail from a wide geographic area, both domestic and international. As a result, students have an opportunity to broaden their knowledge of, and sensitivity to, other cultures—an experience that will help them better understand, and thrive in, an ever-growing global environment.
